FDD Abstract of [redacted]

25X1A

TRAINING SCHEDULE FOR "SERVICE FOR GERMANY" (4 pp; German; Date of information: [redacted]
distribution date: 12 Jan 53) [redacted]

25X1A

25X1X

This document, obtained from an unnamed German organization engaged in anti-Communist activities, consists of photostatic copies of a 4-page typewritten training schedule for the organization "Bienst fuer Deutschland" (Service for Germany), a so-called labor organization. The schedule covers the period from 20 Sep to 20 Dec 52.

The first page merely gives general orientation and suggestions as to the methods of instruction for those in charge of training. (From this page the conclusion can be drawn that the subject document is not complete, as there are provisions for only 10 weeks of instruction, instead of the 13 weeks in the period the schedule is purported to cover. This page also gives abbreviations used in describing methodology and various types of sports; such abbreviations, however, are not found in the schedule that is given.)

The rest of the document is devoted to the training schedule. This schedule is divided into training weeks, and the subjects to be covered in each training week are given, with a detailed breakdown under the main subject headings. The following subjects are taught during the first 10 weeks: Basic training, sports and gymnastics, field exercises and training, map reading, firing of weapons. The schedule is arranged in column form, and for each subject, remarks are included for the guidance of the instructor. These remarks describe the aim underlying the teaching of each subject, the material or equipment required, and hints as to the most efficient manner of teaching the subject.

(It is interesting to note that this organization, which is ostensibly a labor organization, devotes its training program almost exclusively to the teaching of military subjects.)
